PHOTO CONTEST 2014

VICTRON ENERGY PHOTO CONTEST

SHARE YOUR BEST PHOTO OF A VICTRON INSTALLATION
BEFORE SEPTEMBER 12TH, 2014

Always wanted to gain worldwide success with your photos? Join **Victron Energy's photo contest** and have your photo illustrated on one of the pages of our exclusive calendar! Everyone is free to join the contest, as long as the [guidelines](#) are respected.

Photos should be send as JPG and RAW-file to us via www.wetransfer.com, using the e-mail address: events@victronenergy.com

Please include your name, the location of the photo and a small description.

Photos may be submitted up to and including the 12th of September.

We look forward to your photo!

Note: if you have an interesting installation, but don't have the time or knowledge to create a good photo, then please still let us know, as we are always looking for installation examples.

**All winners will
also receive their
photo printed on
glass!**

Energy. Anytime. Anywhere.

BLUE POWER

GUIDELINES & TIPS

- All photos to be in the horizontal orientation.
- The photo is to be taken with a camera that can shoot in RAW format.
- Tip: to make the photo more attractive, it is an idea to add a model/models. This can be a male, a female or both. The outfit of the model/models should be decent and of course fit with the application.
- The photo has to show the function of the Victron Energy products used.
- Victron Energy should be seen somewhere in the picture (use of a dummy product or Victron Energy flag is possible).
- Tip: to show in the photo where it has been taken, it is an idea to add something that is typical for the country. For example a typical object/animal/costume of that country.
- Please note that by submitting the photos for this contest, you transfer the rights for usage to Victron Energy. This means photos can be used by Victron Energy in the calendar and other media.
- All photos received will be checked for their quality and content and be judged by the Victron Energy team.

Energy. Anytime. Anywhere.
