Updating firmware of a VE.Can product

Products which can be updated via its VE.Can port are:

- BlueSolar Charger 150/70 VE.Can
- BlueSolar Charger 150/85 VE.Can
- VE.Bus to VE.Can interface cable
- Lynx Shunt VE.Can

Products with a VE.Can port that need to be updated differently are:

- Lynx Ion (update via USB port instead)
- Lynx Ion + Shunt (update via USB port instead)
- VE.Can tank sender adapter (no updates available)
- Color Control GX (update via internet or with an sdcard)

Instructions

There are two ways to update the firmware via the VE.Can port:

- 1. Product connected locally to the laptop. Requires the CANUSB adapter, ASS
- 2. Product connect remotely, to a Color Control GX: Remote firmware update instructions
