Cable size must be adjusted accordingly.

Battery, main fuse & main switch cables!

MCB/RCD must be installed on the output.

Leakage with breaker or a combination

Must be taken into account for proper main

should be connected power source.

Input current multiplus connections!

Recommendations are

This depends heavily on the size of

The input current

Recommended DC cable/fuse size multiplus

Recommended AC out cable/breaker size multiplus

1.3 KW to the output load when needed.

230 Volt is extremely hazardous

With Power assist the multiplus can add

Recommended DC cable/fuse size multiplus

Recommended AC out cable/breaker size multiplus
