

18. - 26.1. 2014

many visitors for Boot Düsseldorf

A total of 1650 exhibitors from more than 60 countries are displaying their new yachts, water sports equipment and maritime services at Boot Düsseldorf 2014. The boat show is organized for the 45th time. Organisers of the boat show say that despite persisting strain on Europe's boat markets Boot Düsseldorf has attracted a strong turn-out this week. The amount of exhibitors and the exhibition area has grown in comparison to 2013. Visitors from all over the world want to experience the world's largest yacht and watersport exhibition.

Victron at Boot Düsseldorf

With two days still ahead, the show is on a good heading. Victron Energy is present at booth 11/C02, together with Victron distributor Transwatt. Also Victron distributors Buhk Bremen (10/G59.1), Fischer Panda (10/G22) and Mörer Schiffselektronik (11/D37) are exhibiting at the boat show. All are very satisfied with the large amount of interested visitors to their booth.

New products

At our booth we present our newest products: the [Blue Power Battery Charger IP65](#) with up to 95% efficiency, the [BMV 700 battery monitor](#) with improved LCD Read-Out and the [Color Control GX](#), which provides intuitive control and monitoring for all products connected to it.
