

EasySolar

The all-in-one power solution

Energy. Anytime. Anywhere.

Intersolar 2014 – fully prepared

With only a month to go, Intersolar is coming closer. Our preparations to join the world's largest exhibition for the solar industry are in full swing! Visit us at booth B3.440, catch up with our representatives and learn everything about our latest products. On show will be our new EasySolar, ECOMulti and the new BlueSolar MPPTs. Next to the systems, there is also the opportunity to check out our latest software based assistants and VRM. We are looking forward to meeting you at our booth!

EasySolar

The all-in-one power solution

EasySolar is the latest innovative product from Victron Energy. All that is needed to reap the full benefit of solar energy is EasySolar, some solar panels and batteries. EasySolar takes power solutions one stage further, by combining an Ultra-fast BlueSolar charge controller (MPPT), an inverter/charger and AC distribution in one enclosure. With an extensive reduction in wiring EasySolar provides ease of use combined with a maximum return on investment. Please read the full [press release](#) and our [blogpost](#) to learn more about EasySolar and its benefits.

VRM portal

this video explains it all

Victron Remote Management, VRM, is our pay-off 'Energy. Anytime. Anywhere.' in the purest way. This cool video, used to apply for the Dutch interactive awards, gives you a brief overview of some examples and benefits. All in just over a minute! In the corresponding blog more features that can make your life easy, like for example geofence, are explained.

Arviro 10: design meets solar energy

The Arviro 10 is an all electrical and solar powered boat. It is designed to visit the most beautiful places and waters with respect to the environment and without worrying about weather and distance. Due to the solar panels installed at the roof and the usage of Lithium batteries, all electrical devices you are used to at home, like a microwave, induction stove or freezer, can be used on board. Even better, enjoying the view and the wildlife is made easy as they will not be disturbed anymore by the engine noise.

Pacific Powerboat magazine

Quattro packs a punch

You might already have read it on our [blog](#). The March/April issue of Pacific Powerboat magazine covers a very nice article on SeaChange. This 15 meter powercat luxury catamaran from Darwin Australia needed an upgrade. Ynovex Pty Ltd., put together a package that gave the boat a whole new lease of life.
