VE BUS three phase nobreak system with fuelcell

**Diagram:**
- **Input:** 400V~3p-50hz
- **Output/inverter:** 400V~3p-50hz

**System Components:**
- **Fuelcell system**
- **Battery system** (to overcome startup time fuelcell system)
- **DC Wiring**

**Technical Details:**
- Victron Energy
- Phoenix Multi Control
- Multi Plus 24/3000/70
- VE BUS three phase nobreak system

**Additional Notes:**
- PHOENIX MULTI CONTROL
- 0 4 8 12 16 20 24 28 30
- Mains on
- Inverter on
- Boost
- Equalize
- Float
- Overload
- Low battery
- Temperature
- On charger only
- Shore current limiter
- Off
- AGM 12V-200
